TA&MO User Manual

TA RecruitPro

🌍 **Official Website: http://47.93.90.208:8080/tamo**

The TA&MO platform is a robust role-based system for managing Teaching Assistant recruitment. Use this documentation to understand core concepts, set up your account, and execute role-specific tasks.

Table of Contents

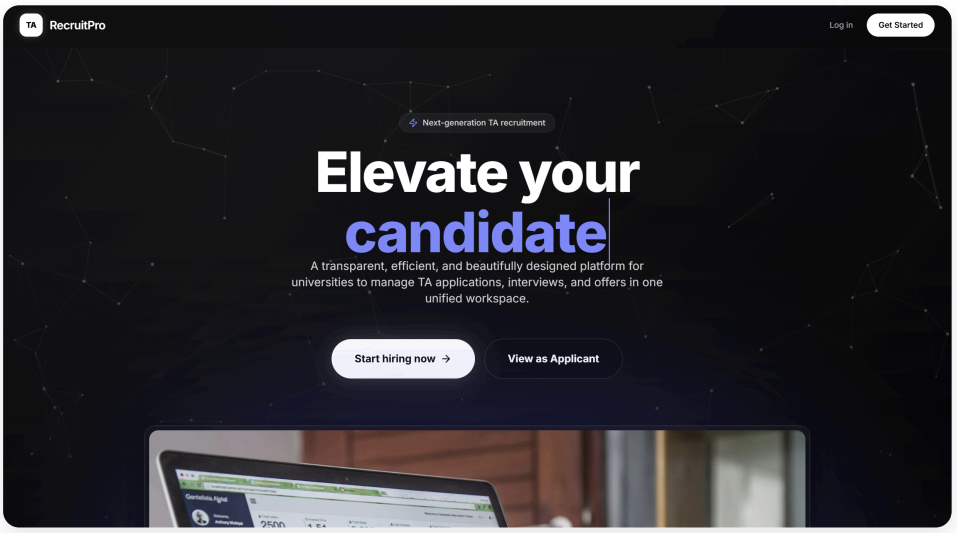

- Quickstart
- Applicant Guide
- Organiser Guide
- Admin Reference

Quickstart

Get authenticated and set up your profile immediately.

Log in to the platform

Navigate to `http://47.93.90.208:8080/tamo`. Enter your university email and password.

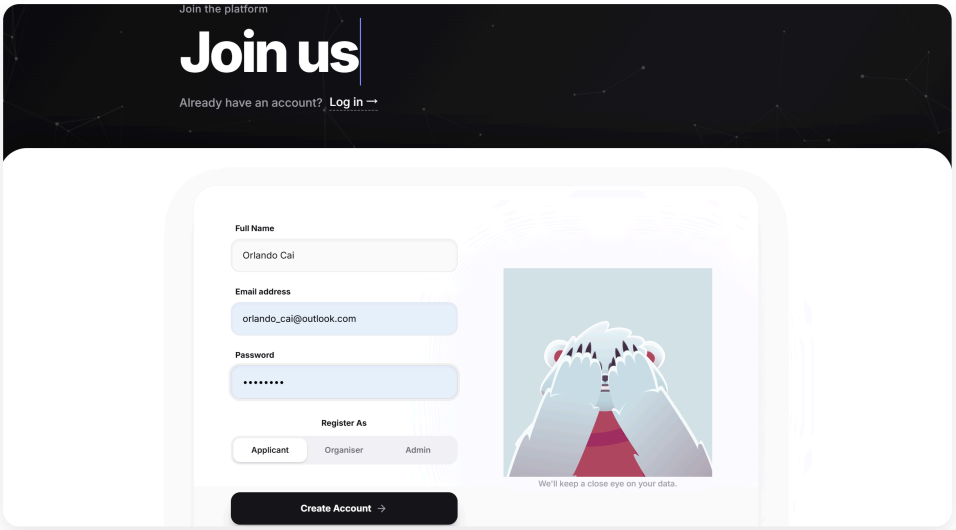

UI Breakdown:

- 🔷 **Email & Password Fields**: Inputs for credentials.
- 🔷 **Interactive Security Animation**: The Rive character tracks cursor input and covers its eyes during password entry.

Create a new account

If you do not have an account, register as a new applicant.

UI Breakdown:

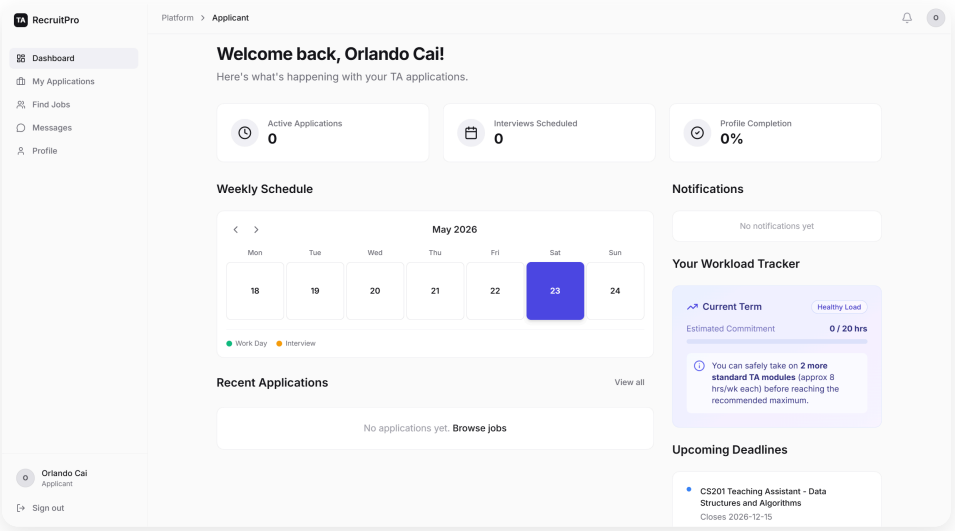

- 🔷 **Role Selection**: Locked to 'Applicant' for self-registration.
- 🔷 **Form Validation**: Real-time error highlighting for mismatched passwords or invalid emails.

Applicant Guide

Instructions for browsing jobs, submitting applications, and communicating with organisers.

Navigate the Dashboard

The Applicant Dashboard provides a high-level summary of your recruitment status.

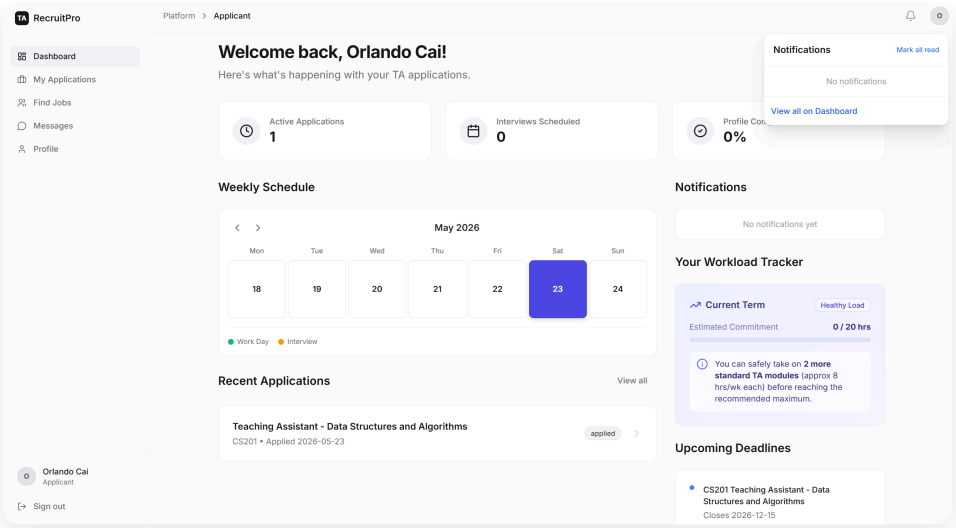

UI Breakdown:

- 🔷 **Left Sidebar**: Primary navigation hub.
- 🔷 **Welcome Header**: Account overview and total active applications.
- 🔷 **Quick Stats Cards**: Aggregate status counts.

View system notifications

Check real-time alerts regarding your applications.

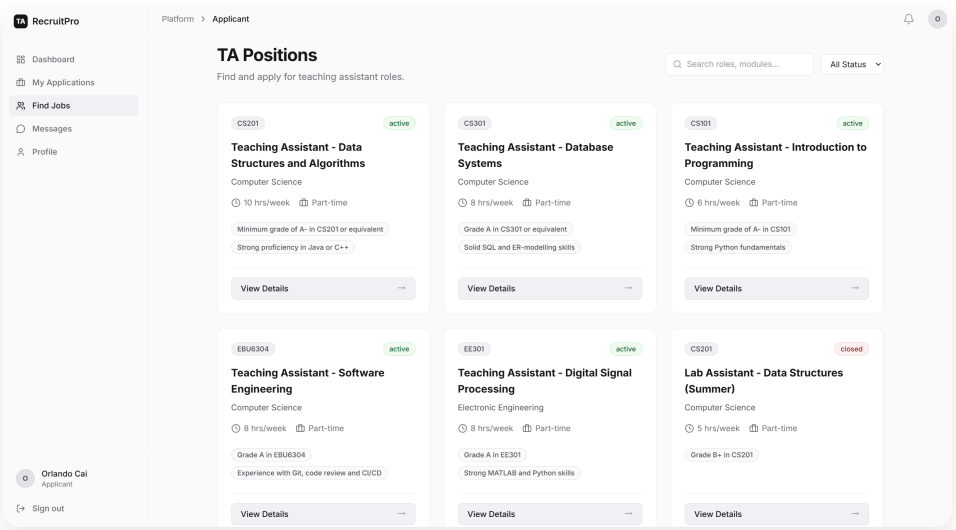

UI Breakdown:

- 🔷 **Notifications Panel (Right)**: Displays alerts like "Interview Scheduled" or "Status Updated".

Search for open positions

Browse available modules and filter by department.

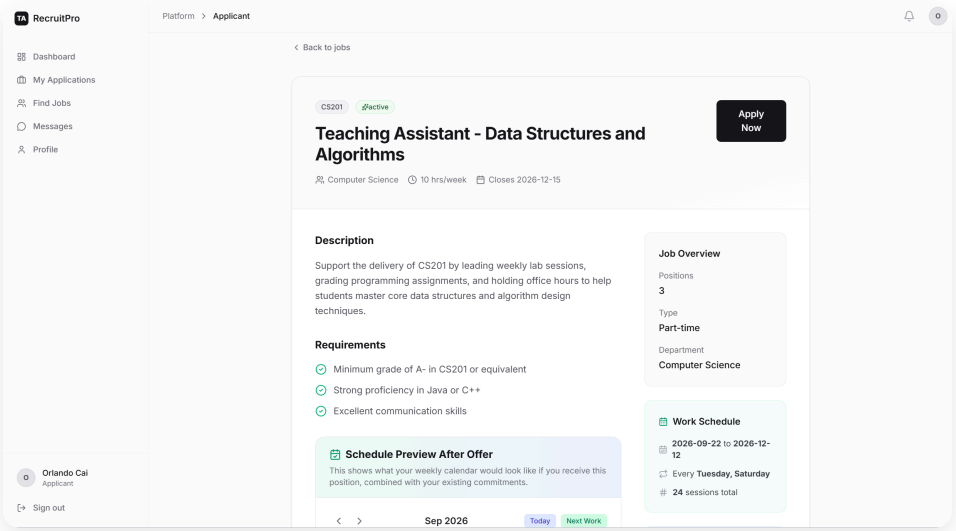

UI Breakdown:

- 🔷 **Search & Filter Bar**: Filter by academic department.
- 🔷 **Job Cards**: High-level summary of module code, title, and required hours.

Review job prerequisites

Click a job card to view detailed requirements.

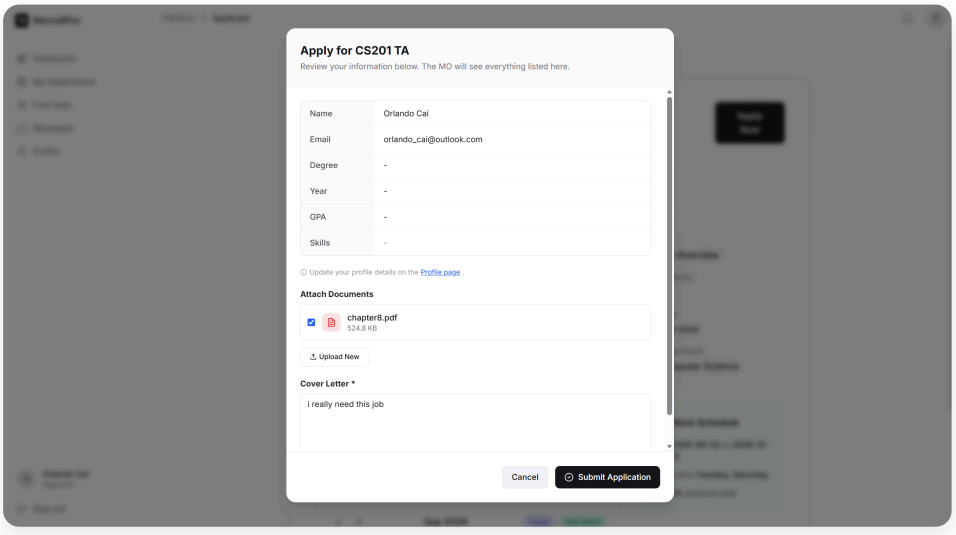

UI Breakdown:

- 🔷 **Description Panel**: Full list of responsibilities and required skills.
- 🔷 **Apply Button**: Triggers the application workflow.

Submit an application

Provide a cover letter to finalize your application submission.

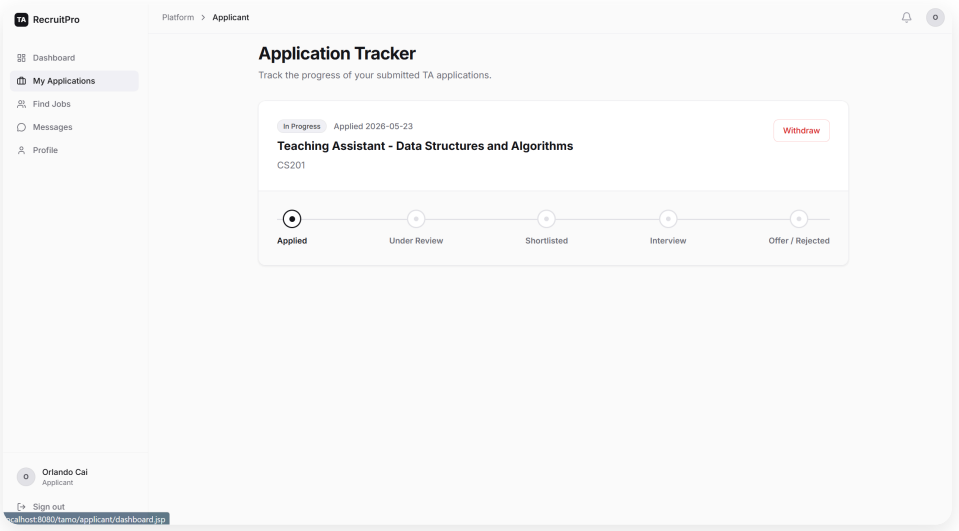

UI Breakdown:

- 🔷 **Cover Letter Input**: Textarea for customized application intent.
- 🔷 **Submit Button**: Locks in current profile data and submits application.

Track application status

Monitor progression through the recruitment pipeline.

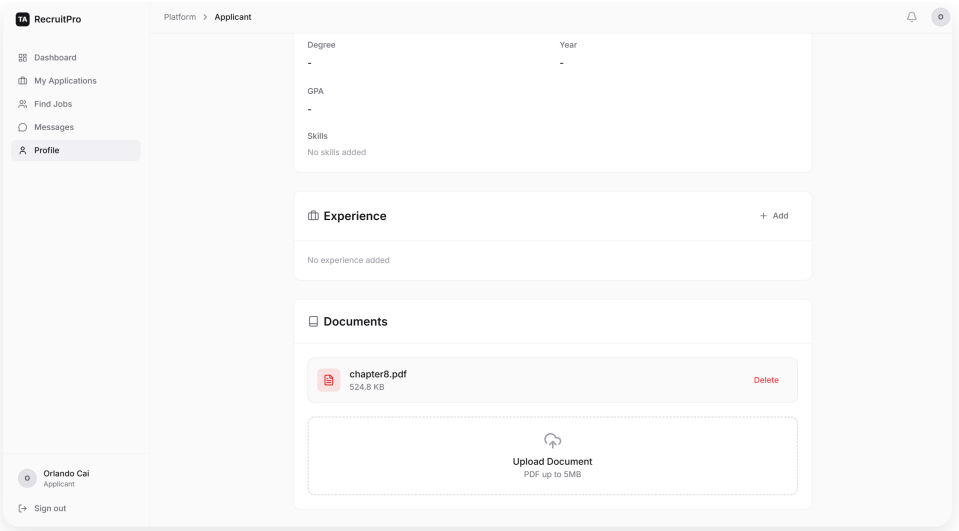

UI Breakdown:

- 🔷 **Status Badges**: Color-coded indicators denoting pipeline stage (Review, Shortlisted, Interview, Offer, Rejected).
- 🔷 **Withdraw Action**: Button to retract an active application.

Build your academic profile

Complete your profile to satisfy job prerequisites.

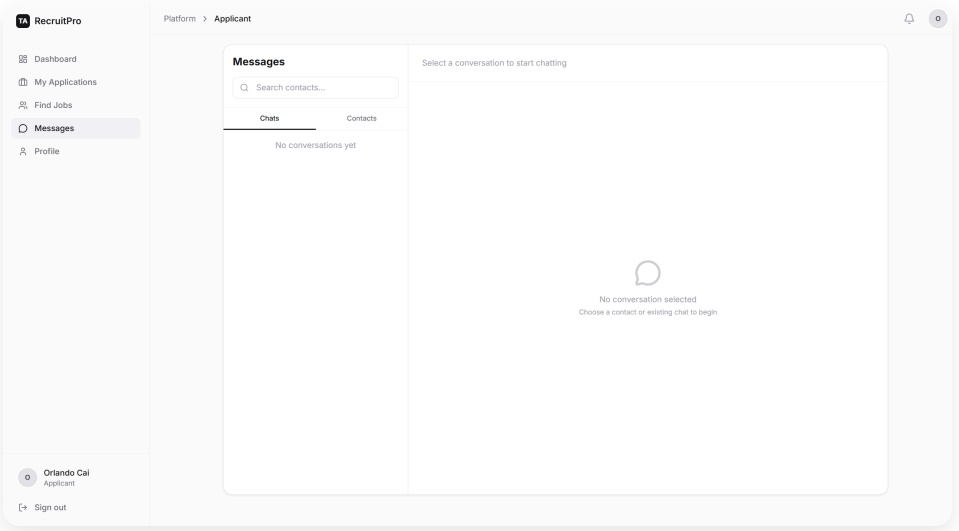

UI Breakdown:

- 🔷 **Academic Details**: Inputs for GPA, major, and degree level.
- 🔷 **Skills Tags**: Selectable skills relevant to technical modules.
- 🔷 **Document Upload**: Secure attachment of CVs and transcripts.

Message module organisers

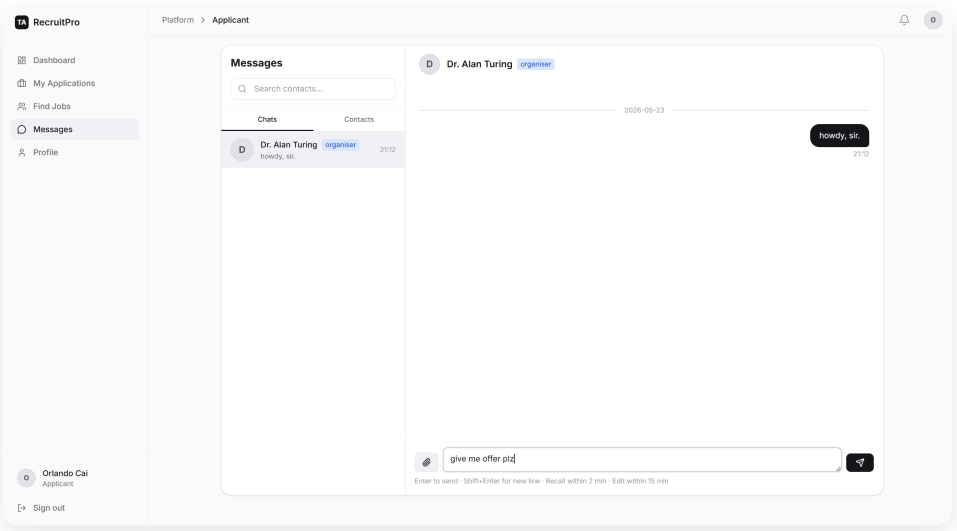

Initiate or respond to chat threads with professors.

UI Breakdown:

- 🔷 **Contact List (Left)**: Permitted contacts based on active applications.

- 🔷 **Empty State**: Default view when no conversation is active.

UI Breakdown:

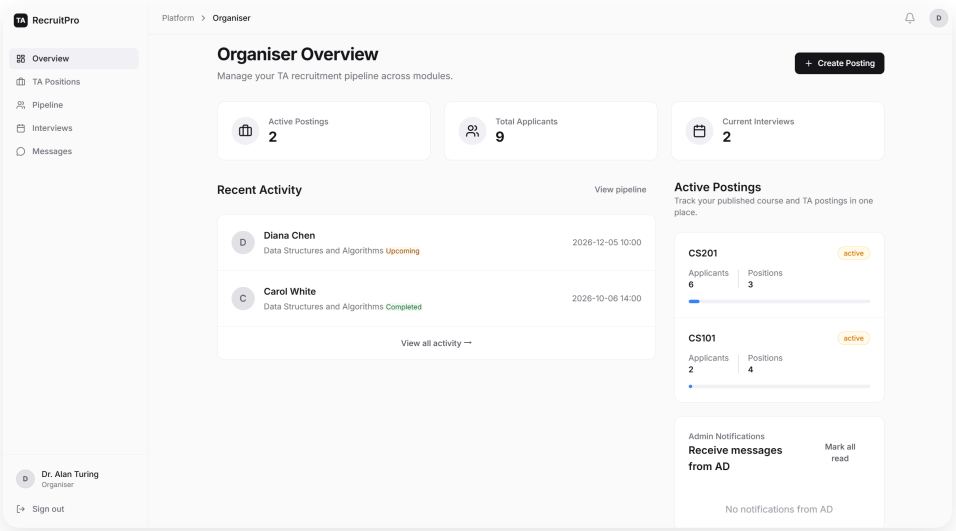

- 🔷 **Chat History**: Chronological message feed.
- 🔷 **Message Input**: Textarea for drafting inquiries.

Organiser Guide

Instructions for managing job postings, reviewing candidates, and scheduling interviews.

View module overview

Access aggregated metrics for your assigned modules.

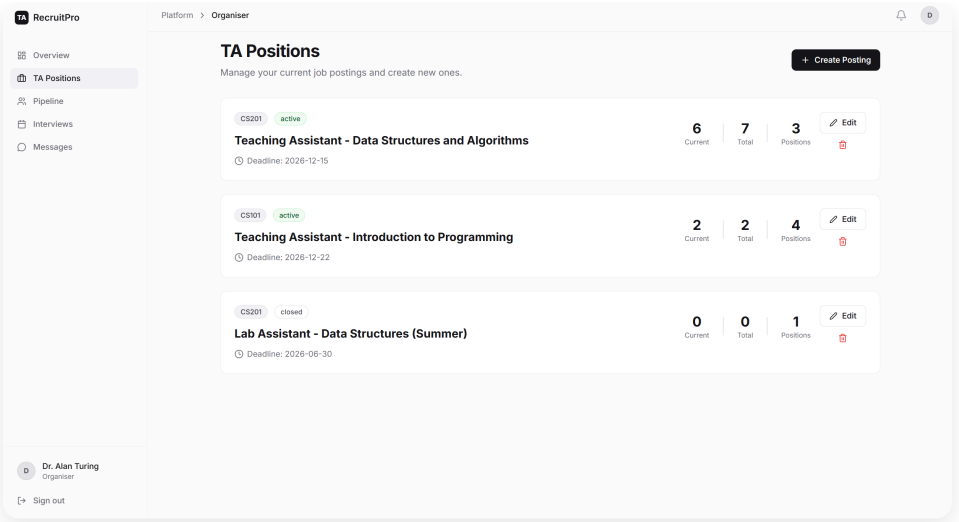

UI Breakdown:

- 🔷 **Module Capacity Cards**: Ratio of hired TAs vs. required TAs.
- 🔷 **Recent Activity**: Timeline of incoming applications.

Manage TA postings

Publish, edit, or toggle visibility of module listings.

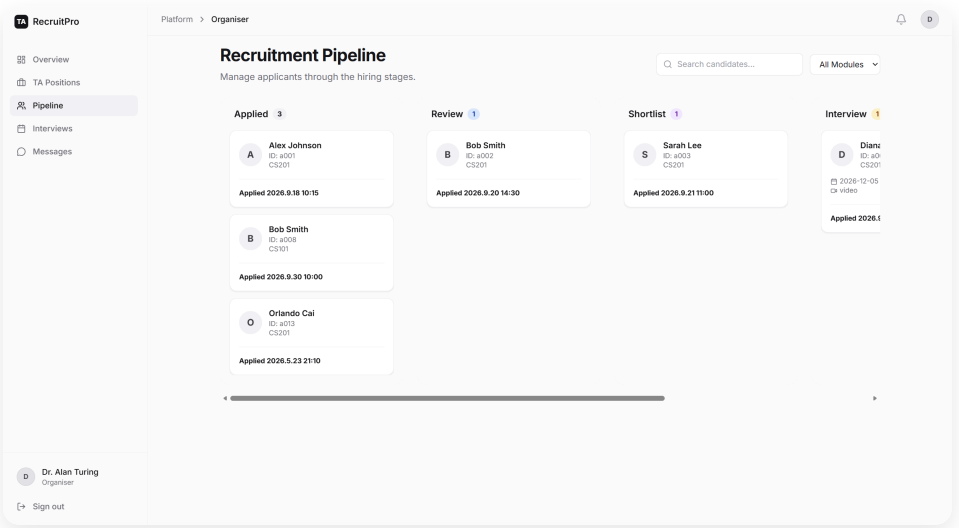

UI Breakdown:

- 🔷 **Create New Job**: Button to initialize a new job posting.
- 🔷 **Job List Table**: Actionable rows for toggling visibility or editing details.

Progress candidates through the pipeline

Use the Kanban board to manage recruitment stages.

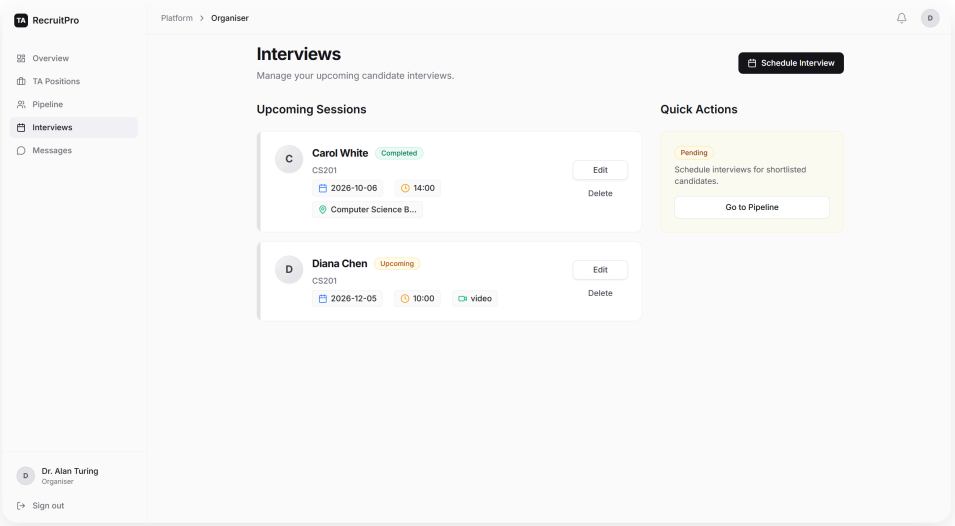

UI Breakdown:

- 🔷 **Pipeline Columns**: Distinct stages (Applied, Review, Shortlisted, Interview, Offer).

- 🔷 **Drag-and-Drop Interface**: Click and drag candidate cards across columns to update their status.
- 🔷 **Automated Notifications**: System dispatches alerts automatically upon status change.

View scheduled interviews

Check upcoming meetings with shortlisted candidates.

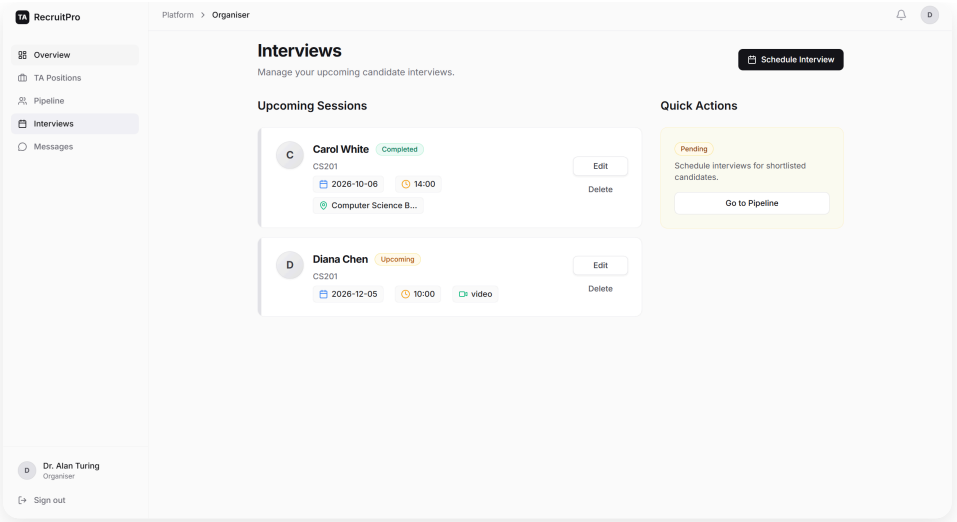

UI Breakdown:

- 🔷 **Upcoming Interviews Table**: Chronological list of meetings.
- 🔷 **Status Flags**: Indicators for 'Scheduled' or 'Completed' states.

Modify existing interviews

Hover over an interview row to reveal management actions.

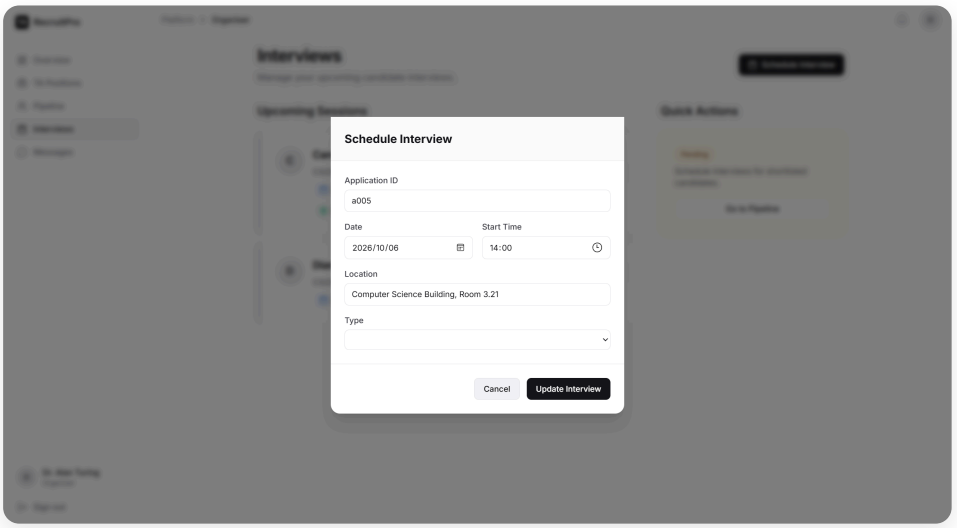

UI Breakdown:

- 🔷 **Hover Actions**: Contextual buttons for Edit, Cancel, or Mark as Completed.

Schedule a new interview

Assign a date, time, and format for a candidate meeting.

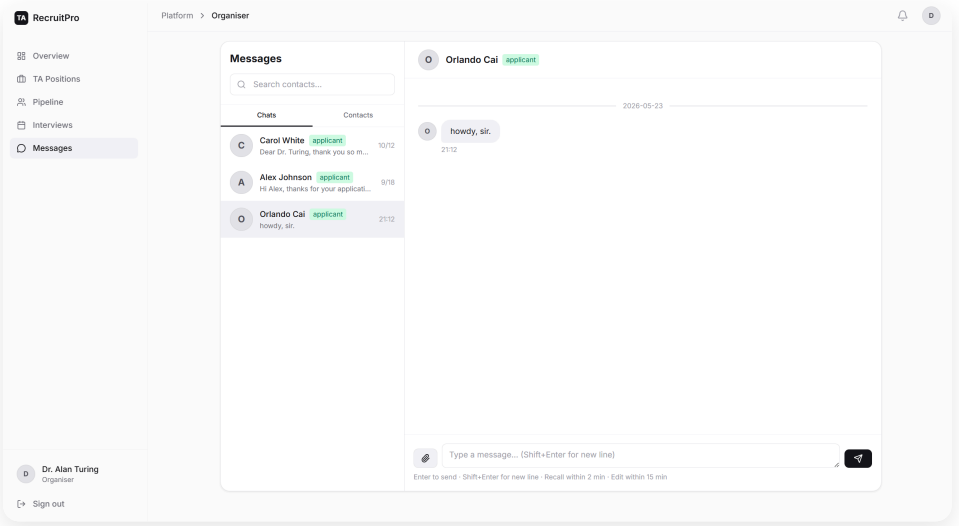

UI Breakdown:

- 🔷 **Date & Time Pickers**: Inputs for scheduling.
- 🔷 **Format Toggle**: Switch between 'Video Call' (generates link) or 'In-Person' (requires location).

Message applicants

Communicate directly with candidates.

UI Breakdown:

- 🔷 **Applicant Roster**: List of candidates grouped by module.
- 🔷 **Chat Interface**: Rich text area for sending feedback.

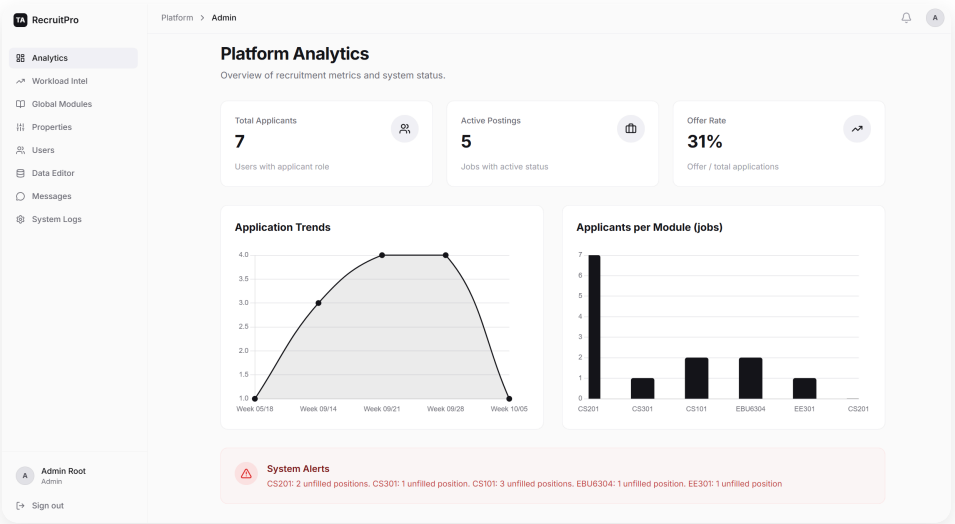

Admin Reference

Tools for platform auditing, workload intelligence, and global configuration.

> [!CAUTION] Admin tools directly modify global state and persistent data. Ensure configurations align with university policy before saving.

Review platform analytics

Monitor aggregate system health.

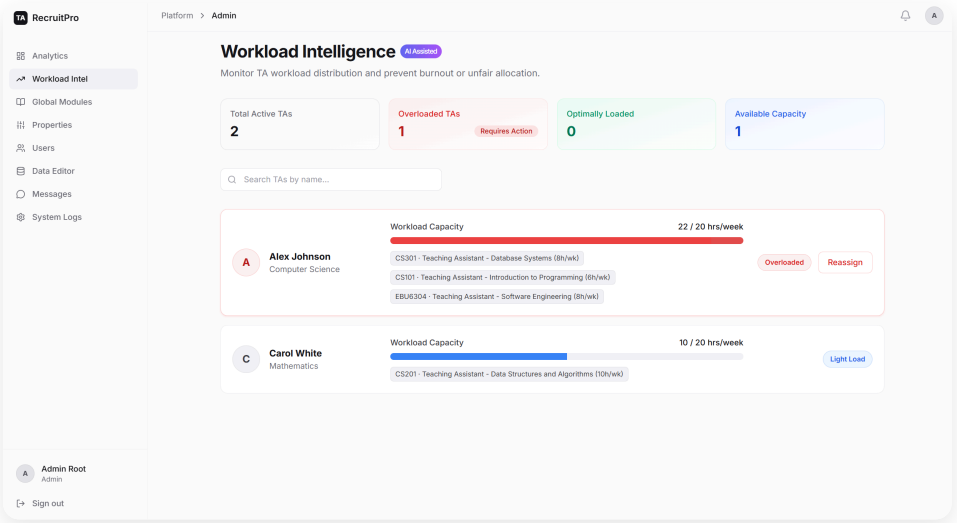

UI Breakdown:

- 🔷 **Global Metrics**: Total users, applications, and conversion rates.
- 🔷 **Department Charts**: Visual distribution of TA demand.

Balance TA workloads via AI

Utilize Workload Intelligence to ensure compliance with maximum working hours.

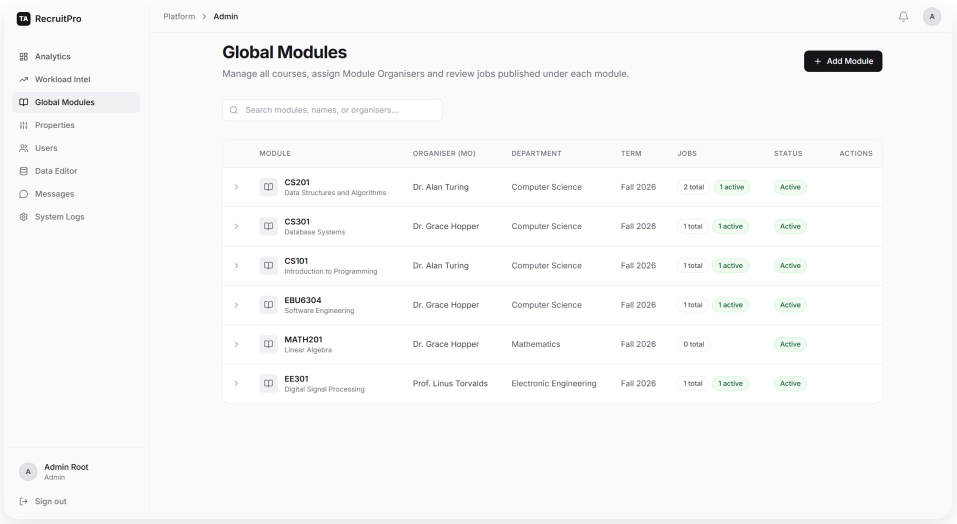

UI Breakdown:

- 🔷 **AI Insights Panel**: Automatically flags students exceeding hourly limits.
- 🔷 **Reassignment Tools**: Admin override to transfer offers between candidates.

Manage global modules

Register new curriculum modules and assign organisers.

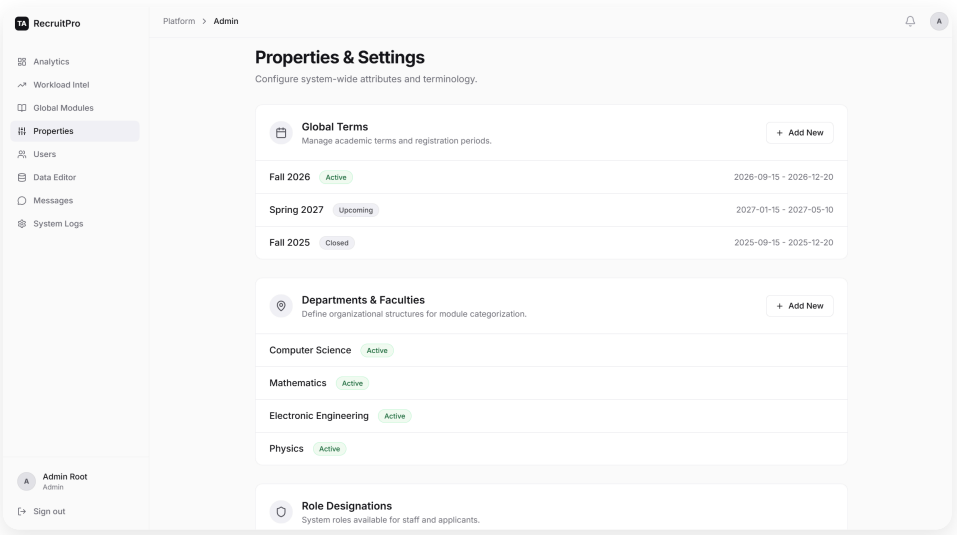

UI Breakdown:

- 🔷 **Module Registry**: Table of all system-recognized courses.
- 🔷 **Organiser Assignment**: Dropdown to map professors to specific modules.

Configure system properties

Set core platform variables.

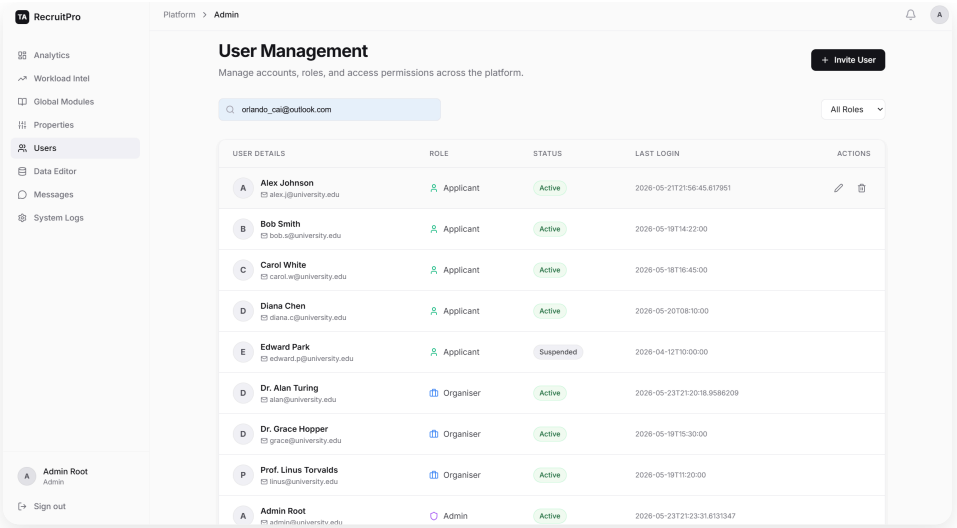

UI Breakdown:

- 🔷 **Term Configuration**: Input for current academic semester.
- 🔷 **Department List**: Dynamic CRUD interface for university departments.

Manage user accounts

Oversee registration and role assignments.

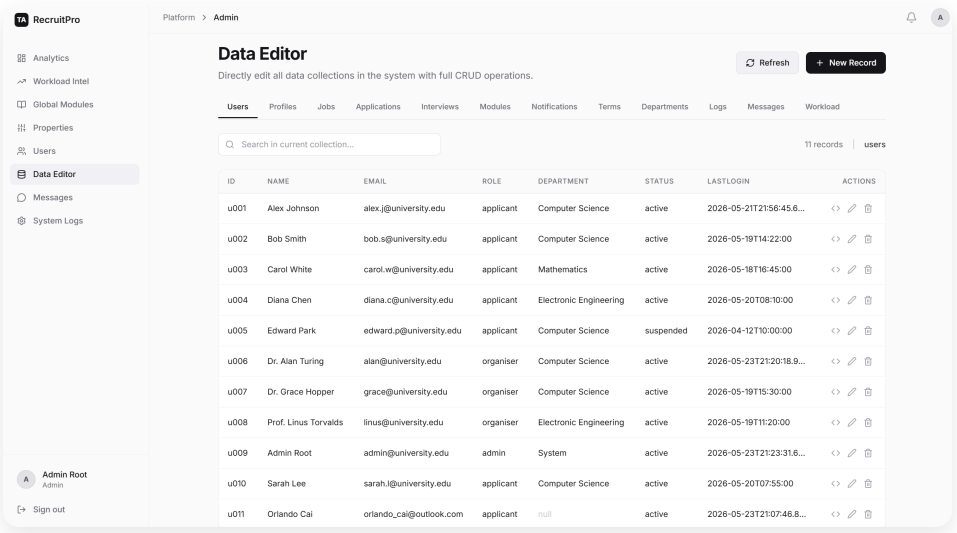

UI Breakdown:

- 🔷 **Role Assignment**: Upgrade standard accounts to Organiser or Admin.
- 🔷 **Account Actions**: Suspend or delete malicious users.

Edit persistent data directly

Bypass business logic to execute raw CRUD operations on the JSON datastore.

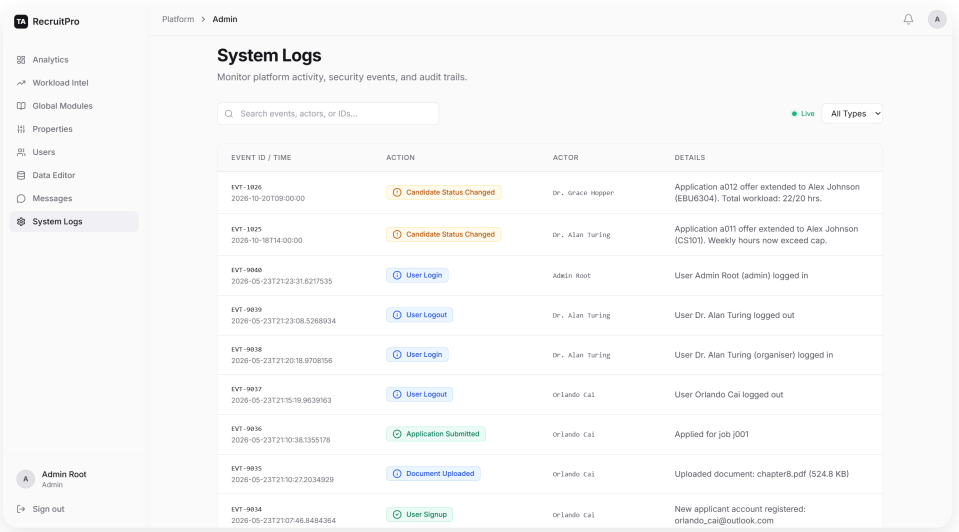

UI Breakdown:

- 🔷 **JSON CRUD Interface**: Tabular view of underlying database collections.
- 🔷 **Action Buttons**: Direct edit/delete capabilities for raw entities.

Audit system logs

Review secure logs for platform activity.

UI Breakdown:

- 🔷 **Log Table**: Chronological record of actions, user IDs, and timestamps.
- 🔷 **Severity Filters**: Toggle between INFO, WARNING, and ERROR logs.
