Name: Junjie Chen

Age: 20 **Telephone: 15875339029** **Email: junjiechen0@bupt.edu.cn**
jp2023213670@qmul.ac.uk

Education

2023.09-Now	**BUPT**	**Intelligent Science and Technology (JP)**	**GPA: 89** **Rank: 19/98**

Scientific Research Experience

2025.03-2025.09 **Research on Large-Scale Agent Models at NTU** **Intern**

- **Background:** Having learned of Dr. Kun Wang's recruitment notice for research interns via the BUPT Forum, I submitted my CV and commenced research collaboration.
- **Process:** Conducted research reading on agent-oriented papers and participated in weekly group meetings. Contributed to the AgenTracer project by developing the data-building pipeline. The project's research paper, **AgenTracer: Who Is Inducing Failure in the LLM Agentic Systems?**, has been submitted to the 2026 ICLR conference.
- **Outcome:** Through research, I gained insight into technologies within the **LLM Agent** domain. While constructing the dataset, I learnt how to leverage open-source projects on **GitHub**, such as **MetaGPT**. 。

2025.03-Now **BUPT Research Collaboration on TPAMI Conference Papers** **Intern**

- **Background:** Having learned of Dr. Shuai He's recruitment notice for research interns via the BUPT Forum, I submitted my CV and commenced research collaboration.
- **Process:** Participate in weekly group meetings while acquiring foundational knowledge in **machine learning**, **deep learning**, and **PyTorch** usage. Develop a workflow for **LLM** to automatically perform semantic segmentation and exposure evaluation. The project is currently in the paper drafting stage.
- **Outcome:** Acquired foundational knowledge in AI-related research, gained insight into research topics within the **IQA** domain, and enhanced practical experience with **multimodal large language models.**

Media Practice Experience

2024.03-2024.06 **Production of the Promotional Film** **Core members**

- **Background:** To mark the anniversary of the **Graduate College of Engineers**, arrangements have been made for officers from the **Youth League Committee of the International School** to assist in the production of the school's promotional video.
- **Process:** Following discussions with the faculty lead, preliminary steps have been established. Then we formulated a shooting schedule, completed filming of relevant footage, and undertook post-production using **Adobe Premiere Pro** and **Adobe After Effects.**
- **Outcome:** Smooth delivery of the finished film.
